Section 6: Playlist Pitching Best Practices

1. Personalise every pitch. Reference a specific playlist and explain why your song fits. 2. Do not send unsolicited attachments. Always use a streaming link (Spotify, SoundCloud, private YouTube). 3. Follow curators before pitching. Engage genuinely with their content first. 4. One follow-up only if no response after 2 weeks. 5. Submit to SubmitHub and Groover for efficiency, curators on these platforms have opted in to receive music, so your pitch is not unsolicited. 6. Track all pitches. Use the log above to avoid duplicating and to measure success rates. 7. Quality over quantity. 20 well-targeted pitches outperform 200 generic mass sends every time.
